INVITATION

Dear Friends

Greetings from Mumbai. It gives us great pleasure to invite you on behalf of the Organising Committee to participate in a CME at Jaslok hospital and Research Centre called “Comprehensive Review of Interventional Pain Therapies” on the 17th and 18th November 2007. This is organised by Jaslok hospital and Research Centre, Mumbai in association with Cornell University, Newyork, USA. It is also supported by ISSP and MPMG. The aim of this CME on chronic pain is to update our knowledge about this newer challenging subspecialty by sharing ideas with our eminent international and national faculties.

This unique CME will have a special emphasis on practical aspects of various interventional pain procedures including recent advances in the field. The Selection criteria, Indications, Technique, Efficacy and Limitations of various procedures will be dealt with in details by our able faculties. You will surely have ample opportunity to interact with our luminaries with their vast experience built over years.

We look forward to see you in Mumbai in the month of November and promise to give you an academic feast.

Dr Preeti Doshi
Jaslok Hospital
Org.Secretary

Dr Sudhir Diwan
Cornell University
Org.Secretary

Jaslok hospital is a one of the premier hospitals of Mumbai. The Pain Management Department offers the entire spectrum of Interventional Pain procedures including Advanced Pain Therapies in a multidisciplinary fashion. We are proud to associate with Cornell University, New York, USA to conduct this academic activity.

Objectives :

This CME is designed for existing Pain practitioners, Postgraduate students and Anaesthesiologists with a keen interest in this newer challenging subspecialty of Anaesthesiology to update their knowledge on management of chronic pain. This will have a special focus on interventional procedures including advanced pain therapies.

Scientific Programme Highlights :

Didactic Lectures on :

- Transforaminal Epidural Injections/Pulsed RF
- Epidural Neuroplasty
- Interventions for Facetogenic pain
- Percutaneous Interventions for Discogenic Pain
- Use of Neurolytic Blocks in the current practice of Pain
- Application of Radiofrequency Lesioning in pain
- Application of Intrathecal drug delivery systems
- Use of spinal cord stimulation in pain
- Peripheral nerve stimulation for Neuropathic pain
- Application of Botulinum toxin in chronic pain

Live demonstration by International faculties

- Spinal cord stimulation
- Radiofrequency Lesioning
- Intrathecal drug delivery pumps
- Botulinum toxin
- RACZ Adhesiolysis
- and others

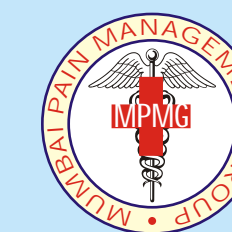

There will be ample scope for interaction with the faculties. Also, we will try and distribute some very interesting educational material to the delegates courtesy our Cornell university faculties.

REGISTRATION CHARGES

Category	Registration Charges
Delegates	Rs. 1500
Accompanying Person	Rs. 1200
PG Students	Rs. 1000
Overseas Delegates	\$ [US] 100
Overseas Accompanying Person	\$ [US] 75
